

I AM NCR ALOHA RESTORE

Reliable data retrieval when you need it most

We've got your backup

Ensure the consistent and reliable backup and recovery of critical POS data with NCR Aloha Restore. If you encounter a local server failure and need to retrieve data, it is available to you through a secure FTP site.

Peak performance

Not only does this automated and affordable solution help relieve the burden of backing up store-level data, but it keeps a restaurant's Aloha POS running at its best by sending the excessive number of dated subdirectories to an external source.

400 days of data

Users of NCR Aloha Restore have access to the previous 400 days of dated subdirectory data through a secure and easy to use application that is run from the site.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

Key features

- Dated sub directories are backed up daily as they are created by your end of day process. NCR Aloha Restore maintains up to 400 days of data access.
- Backed up directories are sent to the NCR data center by a secure transport process, so your data will be safe while in transit.
- Should you ever need to restore your data, it will be available through an easy to use application run from your restaurant. Just a couple of button clicks and all of your backed up data can be restored in short order.
- With the combination of archival and restore, customers can feel at ease knowing they are able to continue their restaurant operation right where they left off, with up to the previous day's sales and configuration information if they lose data for any reason.
- Receive a file with all relevant business information at the end of each year (additional charges may apply).

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
